SEACHANGE *Accounting Solutions*

BETTER BALANCE WITH SMART ACCOUNTING SOLUTIONS

At SeaChange Accounting, we know how important timesaving tech is to running a better business and achieving work/life balance.

We use the latest online accounting solutions to provide the insights you need to grow your business and the freedom to focus on what you love.

Principal, **Sandra Magann**, has been crunching numbers for more than 25 years across public practice, commerce and small business. She knows every business is unique and that customised solutions are key. Sandra also understands the importance of maintaining a balanced lifestyle and often encourages her team to join her for yoga or a gym session during lunch breaks.

SeaChange is excited to welcome **Lee Turner** to the team. Lee and her husband know firsthand the juggle of balancing a young family and a busy

business. Lee has a Bachelor of Business and an Advanced Diploma in Accounting. After growing up locally, Lee spent six years in Kalgoorlie, WA before coming back to Port. Her passion is helping small business owners put systems in place to support growth, while freeing up time to spend with family and friends and enjoy the local lifestyle.

Cassie Jones-Jefferies is our resident Xero guru and is completing a Bachelor of Accounting. She loves helping clients save time and money with cloud-based solutions for their accounting, tax and payroll needs.

Laura Fava owned a small business for more than five years and has a knack for knowing exactly what clients need. This is what sparked her to undertake a Bachelor of Accounting so she could help others.
