

The faces *behind* your financial success

At SeaChange Accounting our approach combines people-focused service with time-saving tech.

Our growing team of professionals make the most of the latest online solutions to provide the insights you need to grow your business and the freedom to focus on what you do best.

The newest member of our team, Cassie Jones-Jefferies, is passionate about technology, making her a perfect fit for SeaChange. She's a Xero guru and loves showing clients how to save time and money with cloud-based solutions. While studying her Bachelor of Accounting, Cassie is here to support all your accounting, tax and payroll needs.

SeaChange Principal, Sandra Magann, has been crunching numbers for more than 25 years across public practice, commerce and small business. Sandra understands every business is unique and

the only solutions that work are customised for the client.

Chartered Accountant Tim Sproats made his seachange from Sydney bringing a wealth of experience. He enjoys finding efficiencies through accounting, and helps business owners succeed so they can love the local lifestyle as much as he does.

For Laura Fava, a love for numbers grew when she was bookkeeping in her own business. This sparked her to undertake a Bachelor of Accounting. Having owned a small business for more than five years, Laura has a knack for knowing exactly what clients need.

Lauren Swain has been part of the SeaChange family for more than five years. She's multi-talented across accounts, customer service, reporting and specialises in Xero.

DO MORE OF WHAT YOU LOVE
